Christian LIFE Academy  
*Learning for L.I.F.E*

Christian LIFE Academy After School Program (CLAASP)'s mission is to serve the school and the community by offering a safe, fun, educational and recreational experience through a broad variety of activities. We encourage each child to use his/her God-given potential by recognizing and celebrating their abilities.

## STEAM

We introduce STEAM concepts and provide time for projects, self-guided exploration, and supplemental programming to build skills, confidence, and ongoing interest in STEAM. Our goal is to drive interest, engagement, and immersion into STEAM topics.

## FINE ART

Your child will gain both confidence and an understanding of the visual arts while building painting, drawing and mixed-media skills. Weekly classes are held on Fridays throughout the school year. Sessions are challenging and exciting for ages 6-12.

Through guided, hands-on art projects, students develop an eye for color, composition and design. While mastering the fundamentals, they also learn lifelong habits regarding technique, material use and art appreciation. Throughout the year, we explore a variety of artistic realms, such as still life, animals, people, landscapes, and abstract concepts. Young Vincents take home an amazing portfolio of completed artwork which they are proud to sign, display, and share.

## MUSIC CLUB

The club introduces children to the joys of music, so that they can appreciate and enjoy music at an early age. We also use this opportunity to introduce them to various musical instruments. The goal is for them to explore different instruments including piano, guitar, singing, movements and also to learn the basics of music (e.g. rhythm, pitch, dynamics, etc).

## READING CLUB

The reading club is a fun, learning centered class to help students use grammatically correct English. It involves expanding students' range of general and academic vocabulary and helps develop students' ability to comprehend and interpret different kinds of written texts and digital contents.

Students will compose different kinds of writings, power points, digital documents for effective communication on matters of international issues.

## FUN, FOOD & FAIRYTALE

Come join us for some fun with fairytale stories around the world and cooking food based on the stories. We do activities such as coloring, crafting, acting or building some scenes from the fairytale. We also learn German vocabulary and sentences while doing these activities. If you want to learn German conversation and make and eat yummy food, you are welcome to come and have fun with us.
